

Local Nucleus Colonies 2018

Swarmbustin' Honey

NUCLEUS COLONIES:

- Will contain 4-5 **DEEP** frames, a laying Queen, 2-3 frames of brood, an ample population of bees, and adequate food stores. This is considered **one Nuc**.
- Our **first offering of Nucs**, available Early April, will likely be 5-frame in cardboard boxes. We will split our overwintered colonies as soon as the weather supports the re-emergence of a solid drone population. **This second offering** will be 4-frame Nucs in our wooden boxes which house 2 Nucs (pictured top right). Singles possible, yet tending a minimum of 2 colonies supports self-sustaining beekeeping.

PRICE: \$165.00 / Nuc

- **To reserve your Nucs, we need only your vitals; name, email address, telephone #, and the quantity of Nucs needed.** Need not any \$ now. Payment expected when picking up your Nucs, CASH or check payable to Swarmbustin' Honey.
- Nucs picked up in our wooden boxes require a deposit of \$50 / box. A separate check for deposit be easiest, held until boxes are returned.
- If interested, wooden Nuc boxes can be purchased for \$75 when picking up your bees, prepping you to make splits in your apiary later in the season.

WORKSHOPS: Held the 1st Saturday of the month, April thru July, beginning at 10am

Our informal workshops be free to those on our Nuc lists, and focus upon the bees needs in the upcoming month. The Swarmbustin' crew will illustrate various techniques employed in assisting with their needs. Along with adding a 4th meeting in 2018, we will be breaking into smaller groups according to xperience and interest. We encourage Q&A, are fond of other approaches to this Art and Adventure being shared with the group, & delight in collaborating towards self-sustaining beekeeping with your bees, in our operation, and regionally.

PICK-UP + WORKSHOPS LOCATION: Will Bee at the Bee Farm

Swarmbustin' Honey, 190 Thouron Rd, West Grove, PA 19390

QUESTIONS: Email preferred swarmbuster@911honey.com / Landline 610-384-2384

We welcome questions, will assist with planning, and help with emerging concerns year round
